WHY THE CABLE-DOCK® DESKTOP?

The Cable-Dock is a patented, truly innovative and proven method for effectively securing a laptop computer for mobile professionals. We believe the Cable-Dock is the best way to secure a laptop because:

- We provide shock absorbing pads while others don't.
- We allow air to circulate underneath the laptops while others don't.
- We embrace and conform to the whole body of the laptop rather than just contain the edges and sides as others do. Why? All laptops are not equal in shape.
- We have built-in back-up for keeping the laptop secure in case cable latch release is accidentally opened while others don't.
- We mount all sizes of laptops while others can't.
- We are lightweight at 3.4 lbs with two adjustments for set-u while others weigh 9-10 lbs. with 7-10 adjustments.
